

# Growing up Wild

## Autumn activities

### What to do:

- 1) With your unit, select 3 activities to enjoy
- 2) Click the link to find out how to complete the activity
- 3) Go outdoors and have fun! Remember to spend at least 30 minutes on each activity
- 4) Follow the link on the Girlguiding LaSER website to order your badges

<p><a href="#"><u>Autumn nature detective</u></a></p>	<p>Wild animals can often be incredibly difficult to see. They may come out at night or they may be so shy of us that they stay out of our sight.</p> <p>Can you find evidence of where they've been?</p> <p><a href="#">Resource sheet</a></p>
<p><a href="#"><u>Autumn trees</u></a></p>	<p>Wild creatures search the trees in the cold months looking for nuts, berries and seeds. Can you find them too?</p> <p>Looking at a tree's leaves and seeds is a great way to help identify the different types that you might find around you.</p> <p><a href="#">Resource sheet 1</a>    <a href="#">Resource sheet 2</a></p>
<p><a href="#"><u>Leaf litter bug hunt</u></a></p>	<p>You can find bugs everywhere - under logs and rocks, beneath pots, on leaves, in the grass and on walls.</p> <p>At this time of year, leaf litter is a great place to explore!</p> <p><a href="#">Resource sheet</a></p>
<p><a href="#"><u>Amazing moths</u></a></p>	<p>Moths are much more than just butterflies without make-up. They're a diverse, fascinating and easy-to-see part of our wild world no matter where you live.</p> <p><a href="#">Resource sheet</a></p>
<p><a href="#"><u>Fungi finder</u></a></p>	<p>Fungi are always around us in nature but mostly hidden from view, underground, waiting.</p> <p>How many different shapes, colours and sizes can you spot?</p> <p><a href="#">Resource sheet</a></p>
